

It can be difficult to distinguish the signs of the early stages of Alzheimer's disease from age-related memory changes. If you are caring for a loved-one who is experiencing memory loss and have questions, call us. We're here to help.

MEMORY VILLAGE

*Celebrating the
ART of Life*

Our Philosophy

It's all about the individual. Each person has a story – an interesting history to be honored, a present to be enjoyed and a future to be filled with love.

Memory Care at our Memory Village is special care for special people; not only residents but also family members and friends. Our approach is holistic reaching beyond medical care to include emotional, social and spiritual caring.

Staff

Our dedicated staff members combine their personal passion for caring with special techniques proven effective in

those with memory loss; reminiscing, music, shapes, textures, colors and performing familiar tasks. Of course there is always time to sit together, hold hands and enjoy a quiet moment.

Physical Environment

Our environment is both home-like and therapeutic. The interior design is light and airy featuring spacious private and semi-private apartments. Our community area features an aquarium and fireplace providing a calming setting. A quiet room is available as part of our therapeutic program. The secure outdoor courtyard with a fountain, walking path and beautiful foliage is a place to enjoy the changing seasons.

Respite Services

Are you caring for a loved one with memory loss at home? We understand family caregiving takes devotion and energy. We can help by caring for your loved one for up to 30 days at a time. Respite is a great way to re-energize yourself and to give your loved one an opportunity to make new friends in a caring environment.

Amenities

Some of the amenities included in our **Today's Memories** program:

- Family-style dining with menu options
- Warm and inviting living room
- Peaceful courtyard and garden area
